

Conlang Glyphs

The Conlangers

March 2023

[illegible]

Dear group members (and Ana if she reads this),

I've been working very hard on this font. Some remarks coming from me:

- This is essentially the digitalized version of the photo I made of the script.
- I'm working on the letters with a curve in them. This proves to be extremely difficult.
- Some lines have gaps in between them. I'm working on it.
- The dots are letters to still be made.
- If you have any remarks, you can message them to me, or tell me next week.
- For those interested, I have a Github page for this project. <https://github.com/JarnoSmets/TeX-font>
